

Volunteer Advisory Team

Te Kāhui Hononga Tangata

The **Volunteer Advisory Team** (VAT) exists to support Volunteer Services. It provides a means for Volunteer Services to obtain feedback from the Hospice's volunteer workforce about ideas they have, changes they are proposing, and solutions that work for volunteers.

The team includes five representatives. Each representative represents at least one grouping of volunteers based on location, role, gender, ethnicity, youth, students, retired, working, etc. The representatives take views and evidence-based ideas from their grouping/s to team meetings – the aim being to bring about positive change.

Mary Potter Hospice currently has over 480 volunteers who fulfil a wide variety of roles that assist in the effective running of the hospice and provide the Hospice with some \$1,000,000 worth of hours in unpaid work! Without its volunteers, Mary Potter Hospice would not be able to function as it does now.

Volunteer Services wants to understand what works for volunteers in their volunteering at the Hospice, and what could be done better to ensure that volunteers enjoy their role/s and feel valued – the Volunteer Advisory Team is a vehicle with which they will better be able to achieve this.

From time to time, one of the VAT rep's (Alan, Karen, Ashwin or Sachi) will contact you to ask for your feedback on a particular issue – please respond as we value your opinion – it matters!

Current members of the VAT:

I am **Sally Schoon** and I represent the MPH shop volunteers. I am part of a great team of some 8 multi-tasking volunteers each day working for days / half days Monday to Saturday at the Thorndon Quay hospice shop, with our manager Thomas Dwan and assistant manager Tulia Moss. My background is in education. I am a past president and honorary life member of the NZ Speech-language Therapists Association and a UNESCO fellowship recipient. Until 2020 I was also volunteering each week at a local primary school supporting literacy and oral language skills in a new entrant classroom during story

writing and reading. I am a Commander in the Order of St Lazarus.

I am **Ashwin Gulab** and I represent the male and ethnic cohorts on the Volunteer Advisory Team at MPH. I volunteer fortnightly on Wednesday on reception. I am a retired professional telecommunications engineer. I worked in varied fields of engineering, management, business / capital planning and information technology support systems. I am a volunteer for the Wellington Indian Association with my current role being as Secretary on the Board that manages the property assets of the organisation. I am the team leader for a major building project for the Association. I enjoy meeting people and helping others.

I am **Karen Gibson** and am very excited to represent the group of volunteers who volunteer alongside working full-time. I have volunteered for the hospice for over 17 years serving supper/dinner. I am born and bred Wellingtonian and love our city and community. I'm employed as an Executive Assistant and have been temping/contracting since 2018. I love the variety of temping and enjoy meeting others and learning new work practices.

I am **Alan Greenslade-Hibbert** (putative new Kiwi), arriving from the UK with my husband nearly three years ago. As a retired person, severally a probation officer, lawyer and teacher, I came to Aotearoa for a new adventure, to achieve a new lease of life, and I have certainly achieved that. I have been a volunteer with MPH almost since I landed. I volunteer with them as a biographer, a companion, and now am just on call for lunch duty if someone cannot make their shift.

Talofa lava, I'm **Sachi Taulelei**. I started volunteering at MPH in 2018, after my mother received the most amazing care and support through the IPU. Initially volunteering on reception, I am now a volunteer biographer. I am proud of my Samoan and Japanese heritage and am a mum to two children (ages 13 and 10). I am actively involved in a number of initiatives to address equity, inclusion and diversity (mainly in the workplace). I work full time, leading a design team for a large corporate and also volunteer as a mentor and coach for masters graduates and emerging talent within the design industry. I love my volunteer work at the hospice - it's my connection to my mum, it keeps me grounded and reminds me to cherish every moment of every day, especially with the ones we love.
